DETAILED ACTION

Election/Restrictions

Claims 1 – 49 have be rejoined for examination.

Response to Arguments

Applicant's arguments with respect to the present claims have been considered but are moot in view of the new ground(s) of rejection.

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 1 – 31 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claims 1 – 31 are rejected under 35 U.S.C. 112, second paragraph, as being incomplete for omitting essential steps, such omission amounting to a gap between the steps. See MPEP § 2172.01. The omitted steps are:

Regarding claims 1, 26 and 49, it is unclear as to how the method facilitates the screening or identification of binding differentiation at various drug binding sites of the target compound. For example, how does the measured enthalpy correlate with the binding differentiation at various drug target binding sites? Is the comparison of the heats of reaction correlated with the identification of binding differentiation at various drug binding sites of the target compound? Furthermore, does the measured enthalpy equate to the difference in the measured first and second heats of reaction for the test ligand and target compound?

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Cooper et al. (U.S. Pat. Appl. No. 2005/0076943) teach a thermoelectric sensor for monitoring biological samples. Becker et al. (U.S. Pat. No. 6,294,063) teach a microfluidic method and apparatus for fluidic processing of compartmentalized packets of sample fluid on a reaction surface.

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.
